

*National Association of
State Energy Officials*

NASEO Buildings Program Webinar: State and Local Strategies for Increasing Building Energy Code Compliance

Chris Wagner, NASEO Project Manager
December 13, 2012

About NASEO

- Only national non-profit organization whose membership includes the 56 State and Territory Energy Offices
 - Improve the effectiveness of state energy programs and policies
 - Act as a repository of information on issues of particular concern to the states (e.g., financing, buildings, energy assurance)
 - Serve as the voice of State Energy Offices in Washington, DC
 - Seven Regional Coordinators across the nation to aid in sharing lessons learned for successful policy and program replication
 - Committee structure includes Buildings, Renewables, Industrial Energy Assurance, Financing, and Governmental Affairs
-

NASEO Buildings Committee

- Includes NASEO State Energy Office Members and Affiliate Members
- Covers state, regional, and national issues in:
 - Residential buildings
 - Commercial buildings
 - Public/Institutional buildings
 - Building energy codes
- Objectives and Activities:
 - Identify priority state issues
 - Facilitate peer exchange
 - Provide updates on relevant national and regional policies and initiatives
- Convenes regular meetings
 - Next meeting: February 6, NASEO-ASERTTI State Energy Outlook Conference, Washington, DC (www.naseo.org)
 - Email cwagner@naseo.org for more info

+ Today's Webinar

- Building energy code compliance has been a focus throughout 2012
 - NASEO-BCAP webinar on Energy Codes Collaboratives
 - Research report: “Leveraging State Energy Office-Utility Partnerships to Advance Building Energy Codes”
- NASEO members and Board have stressed a continued emphasis on compliance support and peer-sharing
- Goal: share examples and foster discussion on state and local strategies for improving code compliance

+ Today's Webinar

- Two presentations from NASEO members:
 - Marilyn Kaplan, New York State Energy Research & Development Authority (NYSERDA)
 - Jennifer Wilson, Georgia Environmental Finance Authority (GEFA)
 - Brief state roundtable on building energy codes issues
-

+ Logistics

- All participants will be muted until Q&A period following the two presentations
 - Please enter questions in webinar sidebar throughout the presentations or 'raise your hand' to ask over the phone
- If you have any technical issues, please type those into the webinar sidebar
- Slides and webinar recording will be posted on NASEO website

+ Q&A

- Please enter questions in webinar sidebar or “raise your hand” to ask over the phone
-

+ Open Discussion

- Several other state examples
 - Compliance/enforcement activities
 - Other building energy code priorities
 - Plans for 2013
 - Support needed
 - Insights/questions from other attendees
-

+ Compliance Resources
